MANY TOWNS SELL RED CROSS STAMP

State Leaders Confer With Local Members Over Legislative Members.

By the activity of the State Association for the Prevention of Tuberculosis, sales of Red Cross stamps have been arranged for the following Kentucky towns: Bertha, Bowling Green, Brandenburg, Burnside, Cynthiana, Felton, Paducah, Franklin, Frankfort, Glasgow, Greensburg, Harrodsburg, Hopkinsville, Hickman, Mayfield, LaGrange, Lawrenceburg, Lebanon, Leitchfield, Madisonville, Mt. Sterling, Monticello, Shelbyville and Springfield.

Miss Harriet Anderson, of Louisville, the secretary of the Associated Charities, is acting as chairman for the sale of stamps in the State Association. A number of cities, Lexington, Henderson and others, are conducting stamp sales for their own local work against tuberculosis. The proceeds, however, of these cities in which the work is started by the State Association will go to a fund for state work. The State Association will devote its first energies to pushing a state sanatorium measure thru the legislature. It will also try to build up a large membership over the state. Just as soon as the funds justify it, a trained secretary will be employed for field work, whose duties will be the spread of education on the subject throughout the state, to stimulate the formation of local associations, and the starting of local sanatoriums in as many parts of the state as possible.

The president of the association, C. L. Adler, of Louisville, the chairman of the legislative committee; Bernard Flexner, of that city; Dr. Keller, of Frankfort, and others were in Lexington Wednesday to confer with the members of the Lexington Association as to the details of the bill to be presented in the legislature. It probably will differ very little from the bill presented by the Lexington Association at the last two sessions of the legislature, passed by the last legislature and vetoed by Governor Willson.

What to Read.

"Tell me what a man reads and I will tell you what he is," said a wise writer; for little by little the things that we read become our thoughts, and make the very texture of the mind.

During the last few months the attention of the American people has been aroused to the consideration of pure and impure foods. This agitation has done good, for with the abundance of good food there is little excuse for using any food which is harmful. The time has come when the American family must give better attention than in the past to another matter—the choice between good and bad reading. We have read enough about wickedness in both public and private life; too many stories of criminal transaction; too much about the evil and not enough about the good in life.

Let us have the bright and clean side of our American life only. Let us read stories of heroes who are both brave and noble, and not vulgar and confessed criminals. The mission of the press is to help the reader, not drag him down; to suggest high, not low ideals.

At this season the average American family selects periodicals for the next year. Let the choice be only for clear, wholesome, patriotic periodicals. Send for the Prospect of the 1910 Volume of The Youth's Companion and see what an amount of the best reading selected from the world's abundance of every sort can be had for only \$1.75—52 splendid issues.

Every new subscriber receives in addition to the 52 issues for 1910, all the issues for the remaining weeks of 1909, and the "Venezian" Calendar, lithographed in thirteen colors and gold. THE YOUTH'S COMPANION, Companion Building, Boston, Mass.
